# Art

**A**rt is more than just a visual experience; it is a profound journey of creativity, self-expression, and emotional connection. For an artist, every stroke of the brush, every sculpture, and every piece of digital art is a testament to their unique vision and skill. Art is a powerful medium for expressing emotions that words often cannot capture. Artists use their work to convey feelings, tell stories, and provoke thought. The emotional depth in a piece of art can resonate with viewers, creating a lasting impact. At Sanskaram University, we celebrate the incredible talents of artists and their contributions to the world of art.

## **Art Theme : Banaras View**

**B**anaras is a religious city but from the geographical point of view, when we look at the tall buildings on the banks of the ghat, instead of feeling peace, we feel suffocated, there is no trace of trees, there are only small streets made of stone and concrete, it feels as if our breathing is being suppressed. Leaving the landform, an attempt has been made to move towards the subtle elements. In this picture, the complexity of urbanization has been depicted, where the human being always remains in a stressful situation, he cannot see anything except his surroundings, and in the midst of this, he always keeps wandering to get peace for his eyes and mind.

## Art Theme : Genesis

**T***This painting is about growth and prosperity. My wish and prayer is that the university fulfills all dreams related to Sanskaram vision and mission. Students who are enrolling here from different parts of the world will come out from the infinity loop of ignorance and grow like lotus. However get prosperity and many meanings in their lives. Here white colour symbolizes purity and universal grace. Yellow colour is the colour for depicting energy of our asterol body . Third Chakra named Sri Manipuram in Sanskrit, according to Indian spritual tradition when this chakra activates It creates energy like sun and fire energy. This center point of body controls self worth tenacity, ambition and conviction regrading self improvement. The colour of this chakra is yellow and when activated it creates harmony and motivation and interest in life. By using yellow colour as base I wish this painting change the energy of this place where this work will display, it five greater confidence and courage to viewer to pursue their goals and dreams. This energy will improve viewers confidence, harmony, self acceptance and appreciating their unique abilities, sills and talents, This painting is one of my fantasy work where I pray for growth and prosperity for sanskaram and all souls who connect with them*

## ***Art Theme : Back to Earth***

***B***ack to Earth The painting represents the circle of life which revolves around birth and death. The birth and death of trees and animals. It signifies that souls are neither born nor does it die. Pure souls are the ones which are always with us in the form of angels like Rama, Krishna, Jesus, etc.

## **Art Theme : Mind Set**

**T**here are different minds at different stages. When a new soul comes in existence it has a serene and pious mindset. Gradually it starts accumulating the knowledge and learns the in and out of the life. The soul slowly realized that the comfort of life lies in the power and acquire power and then playing with that power starts. My work is inspired from that power exploitation. In this art powerful man is playing with power. What and how much he wants to give to whom? This is symbolized by two apples one full and other one half. He is playing with his own people by the help of whom he is in power.
